

Fast Track Transition Services

RAMP started providing Fast Track Transition Services in July 2017. Since visuals are always a useful tool, especially for the youth population, the Student Workbook was created to use with Fast Track participants. By having the workbook, students and providers are able to efficiently access all of the resources and tools needed to get the maximum knowledge and value out of Fast Track Transition Services. Students have the ability to take the workbook upon completing the program and refer to it as a refresher long after leaving school.

This instructor manual was developed to provide you instructions and the reasons behind the Student Workbook and how best to use it with your students. The materials can be used in any order and to meet the specific needs of each child. The best tool adheres to the unique needs of its user so feel free to change the order or spend more time in a section that your student needs more education on. The plan is for you to work through the Student Workbook with each participant and go at the pace that works best for them.

About Fast Track

These services lay a foundation for youth with disabilities to reach their full potential by encouraging enrollment in college, preparing for employment or career opportunities, and preparing for independent living. These services can be provided in a group setting or via individual instruction. The goal is to leave students with the tools needed for a successful transition to further their education and/or employment desires.

Services Provided

- Career exploration
